Total costs for Chlamydia Screening activities in Leeds

Financial years 2010/11 to 2015/16

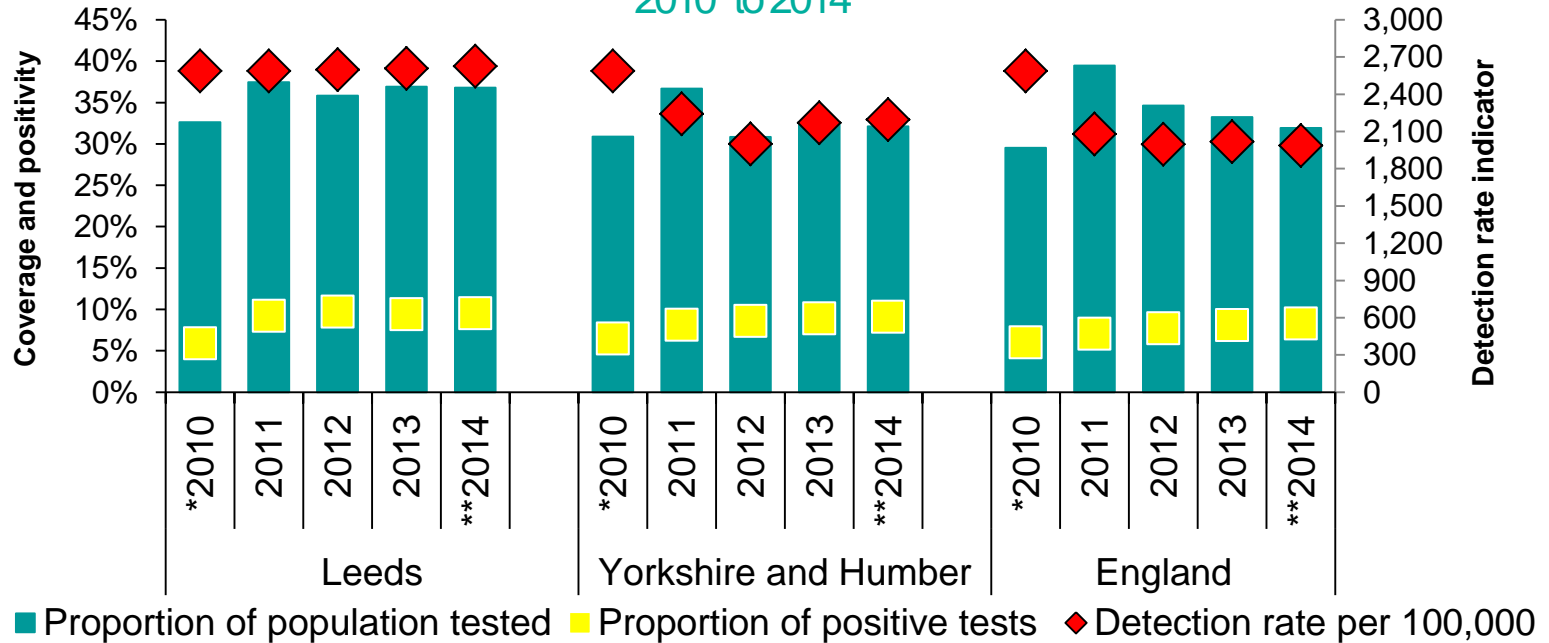

Chlamydia testing data for 15–24 year olds

Coverage, positivity and DRI

Leeds, Y& H and England

2010* to 2014**

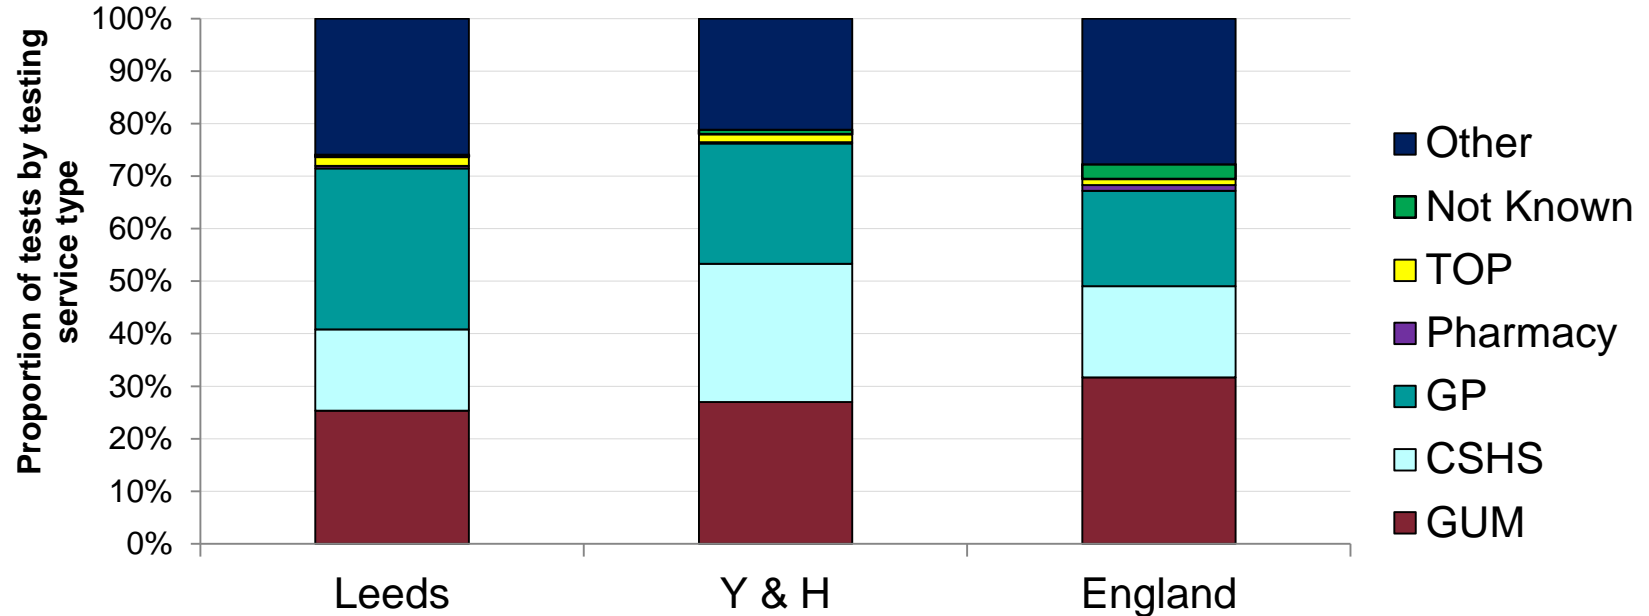

2010 and 2011 data are NCSP data. 2012 – 2014 are CTAD data.

* April 2010- March 2011 has been used as a proxy for 2010 calendar year

**Provisional data Q1 - Q3 2014 (coverage adjusted for incomplete year)

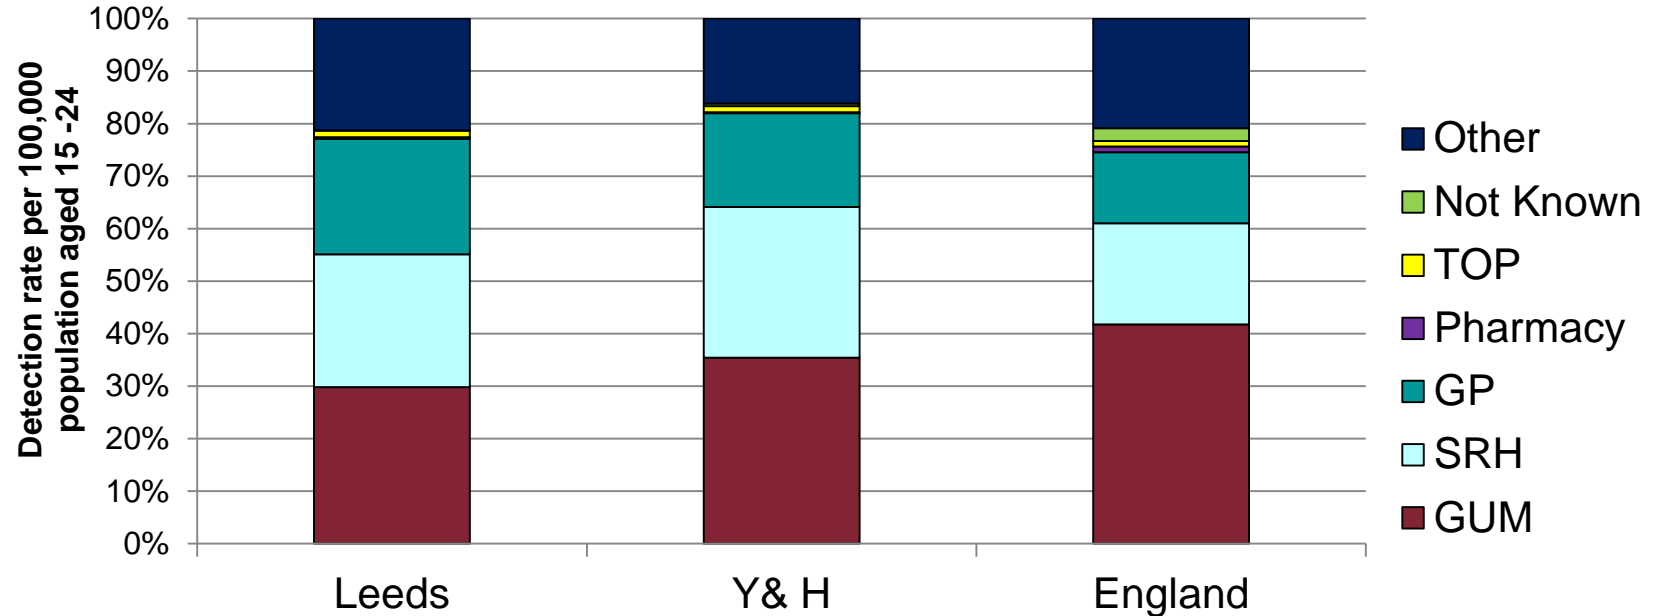

Chlamydia testing data for 15–24 year olds
Proportion of tests by testing service type
Leeds, Y& H and England
2013

Data Source: CTAD (TOP, Pharmacy, GP, CSHS, Not known and Other) and GUMCAD (GUM tests)

Testing Service Type “Other” - includes A&E, MIU, NHS walk in, Hospitals, Antenatal and Obstetrics, CSO, Education, Gynaecology and Fertility, Military, Occupational health, Outreach, Prisons and YOI, Remote testing and Youth centres

Chlamydia testing data for 15–24 year olds
Relative contribution to DRI by service type
Leeds, Y& H and England
2013

Data Source: CTAD (TOP, Pharmacy, GP, CSHS, Not known and Other) and GUMCAD (GUM tests)

Testing Service Type “Other” - includes A&E, MIU, NHS walk in, Hospitals, Antenatal and Obstetrics, CSO, Education, Gynaecology and Fertility, Military, Occupational health, Outreach, Prisons and YOI, Remote testing and Youth centres

Summary

Success multifactorial

1. Fall in spend but exceeding DRI
2. Focus on delivery in core healthcare settings with high footfall and positivity
3. Targeted service provision to vulnerable groups
4. Online testing to support options for testing
